In order to reduce the confusion associated with the new 2011 fees, effective immediately, 2010 on-line applications for USDF Participating and Business memberships will no longer be available via the USDF Web site.

Therefore if a competitor wants to apply for a 2010 membership at a competition they must either use the hard copy form (available to show management on the competition management flash drive – see link below) or they may telephone the office during normal business hours and we would be happy to process their membership via the telephone.

Only 2011 Membership, Horse Registration and Non-Member/Affidavit forms may be used at your competition when the new fees take effect. Please note that Competition Management will be held responsible if the correct 2011 dues/fees are not collected at the competition.

The 2011 forms will be available on the competition management flash drive located at the link above very soon.
